Production Block Changes		
Block	No.	Changes
A-26B-1-DO	0	(not built) similar to the (X)A-26 except for 75mm cannon in nose; similar to the XA-26B except bombing installation provided and range finder not provided
Long Beach Production		
A-26B-1-DL	5	same as the A-26B-1-DO except built at the Long Beach factory
A-26B-5-DL	15	as A-26B-1-DL except deletion of mechanical emergency flap controls and provisions for automatic pilot; revised wiring for wing racks using five-prong plug; gun heaters for wing and nose guns changed from CFE to GFE; deletion of camouflage; dust excluders provided; 125gal tank in bomb bay for use with fragmentation racks; GFE Type A-1 bomb release receptacle; provisions for low impedance head sets; other minor changes
A-26-10-DL	20	as A-26B-5-DL except provisions for design and installation of all-purpose gun nose; revision of armour plate at station 'O' to accommodate all-purpose nose; revision of dural deflector plates reducing thickness from 3/8in to 5/16in; installation of magnesyn compass in vertical fin; change in engines to Ford built R-200-27 or Pratt & Whitney modified engines
A-26B-15-DL	56	as A-26-10-DL except for installation of all-electric bomb release system with Type A-4 bomb release; provisions for Type R-1 fragmentation bomb racks; N-9 gun sight; revised pilot's instrument panel; revised release equipment on all-electric bomb release system; change in aileron boost tab ratio from .375:1 to 1:1
A-26B-20-DL	99	as A-26B-15-DL except revised flat-top canopy added plus other undetermined changes
A-26B-25-DL	50	no information available
A-26B-30-DL	75	no information available
A-26B-35-DL	75	as A-26B-30-DL except revised bubble canopy incorporated into production
A-26B-40-DL	100	no information available
A-26B-45-DL	120	as A-26B-40-DL except engines changed to Ford-built R-2800-79 with water injection
A-26B-50-DL	109	as A-26B-45-DL except internal wing guns added, eight-gun nose standard, provisions for under-wing rockets
A-26B-51-DL	6	as A-26B-50-DL except 125gal auxiliary fuel tank replaced lower turret
A-26B-55-DL	121	no information available
A-26B-56-DL	19	as A-26B-50-DL except 125gal auxiliary fuel tank replaced lower turret
A-26B-60-DL	34	no information available
A-26B-61-DL	110	as A-26B-60-DL except 125gal auxiliary fuel tank replaced lower turret
A-26B-65-DL	0	none built
A-26B-66-DL	136	as A-26B-61-DL except 125gal auxiliary fuel tank replaced lower turret
A-26B-70-DL	0	none built
A-26B-71-DL	0	none delivered
A-26C-1-DL	1	no information
A-26C-2-DL	4	no information
Tulsa Production		
A-26B-5-DT	15	same as the A-26B-1-DO except built at Tulsa factory
A-26B-10-DT	35	as A-26B-5-DT except for provisions for all-purpose nose with attached fittings and electrical connections; revisions to armour plate at station 'O'; reduction in weight of steel armour plate; magnesyn compass in vertical fin; deletion of white upward recognition light; change in aileron boost tab ration from .375:1 to 1:1; protection for lower sight optic
A-26B-15-DT	88 ^a	as A-26B-10-DT except for all electric bomb release system with Type A-4 bomb release; provisions for Type R-1 fragmentation bomb racks; Type N-9 gun sight; revised pilot's instrument panel; revised release equipment in all-electric bomb release system; modified pilot's canopy; R-2800-71 engine with revised ignition system
A-26B-20-DT	54	no information available
A-26B-25-DT	13	no information available
A-26C-15-DT	27	no information available
A-26C-16-DT	10	no information available
A-26C-20-DT	71	no information available
A-26C-25-DT	187	no information available
A-26C-30-DT	160	as A-26C-25-DT except revised canopy incorporated into production line
A-26C-35-DT	200	no information available
A-26C-40-DT	97	no information available
A-26C-45-DT	127	as A-26C-40-DT except Ford-built R-2800-79 with water injection, internal wing guns, provisions for under-wing rockets
A-26C-50-DT	155	no information available
A-26C-55-DT	52	no information available
